To whom it may concern,

**Testimonial for JOVIS CHAN (Class 4-Honour)**

Jovis Chan was a student of Regent Secondary School from 2017 to 2020.

Jovis is an independent and friendly student who forges strong bonds with his peers. He provides strong support to his peers academically so that they can gain better understanding with their work. As a confident speaker, he communicates effectively with his peers and teachers and participates actively in class discussions. He is able to capture the attention of his peers who responded well to his ideas. As such, Jovis displays an ability to think and reason well.

Jovis is a keen and self-directed learner who has high expectations for himself and striving hard to achieve academic success. As a high aptitude and inquisitive learner, he is able to grasp concepts fast and seek clarifications immediately which greatly enhances his learning. In spite of the challenges that he faces, he remains resolute and shows great perseverance in overcoming them. With that, Jovis has achieved excellent results in which he was awarded Top 10% in Cohort as well as Edusave Merit Bursary Award from 2017 to 2019.

Jovis has shown high aptitude for Mathematics. Hence, he was selected for the Singapore Mathematical Olympiad and was awarded the Certificate of Credit for Australian Mathematics Competition in 2018. In addition, he was also selected to represent the school in participating for Singapore Junior Water Prize 2020, in which he collaborated with his other team members in researching the effectiveness of sodium hydroxide in regenerating eggshells to absorb copper ions from water. He has gained invaluable experience in collaborating with other teammates in data analysis and consolidating information and data in completing the report.

Other than pursuing academic goals, Jovis also sought out opportunities to enhance his learning. In 2017 and 2018, he participated in the Applied Learning Programme (ALP) Learning Journey to Singapore Polytechnic Engineering Course and has attained Bronze and Silver for the Young Engineers Award respectively. In 2019, he participated in the National University of Singapore (NUS) Forensic Science Workshop, NUS Physics Enrichment camp and the NUS- DOW Surprising Science Workshop to gain deeper insights into the world of Science. He also took part in a Learning Journey to A\*STAR FusionWorld to learn more about the latest technologies applied in Science. In addition, he also participated in the Advanced Elective Module conducted by Republic Polytechnic to gain exposure in the area of Leisure Travel and Attractions Management.

Jovis has participated actively towards his Co-Curricular Activity (CCA), Mediatech Club in which he enhanced his skills and knowledge in Information Technology, such as coding, photo editing and video editing which was essential to keep up with the

modern world technology. Other than that, he also learnt to collaborate with his other members in organising events which enabled him to understand the importance of teamwork. For his CCA contributions, he received the Bronze National Youth Achievement Award in 2020.

Jovis was given an opportunity to participate in the Overseas Programme in Kun Ming, China where he interacted with the local students at a school in 2019. Besides the cultural exchange, he also learnt more about the different cultures and traditions of the Yunnan tribes, and also get to view the picturesque scenery through the famous places of attractions.

In addition, Jovis also participated actively in other Values in Action (VIA) projects to extend his care and concern for the larger community. In 2018, he participated in the HomeRefresh Programme under BlossomWorld Society and collaborated with class mates to engage the residents during the North West Community Development Council (NWCDC) Care & Repair Programme. He also performed in the Methodist Welfare Services Nursing Home in 2018 and planned activities to engage the elderly at Fei Yue Activity Centre in 2019. Through these projects, he developed empathy and a sense of responsibility towards the less fortunate.

Overall, Jovis has the attributes of resilience and diligence. With his enthusiasm to learn and determination to succeed, Jovis is capable of assuming greater responsibilities in his future endeavours.

Warmest regards,

---
